

Cleaning and disinfection in the general food industry

Professional hygiene solutions

STOCKMEIER
CHEMIE

Individual solutions for the highest hygiene requirements

As a family-run company, the STOCKMEIER Group has been priding itself on an exceptional partnership with its customers for over 90 years.

Not a day goes by where we aren't working hard to optimize the quality of our products and processes. Our team develops solutions to ensure that both we and our customers are always at the top of our game. In fact, it is our close, longstanding relationships with our customers and suppliers that allow us to develop, manufacture, and market sophisticated products around the world from a single source.

Our extensive expertise in the fields of product development, production, and service comes into play every single day, as we provide our customers with customized solutions of the highest quality. As part of the Group's mission to meet the various high requirements of companies involved in the food-processing industry – particularly with regard to their high expectations for cleanliness and hygiene – STOCKMEIER cleaning agents and disinfectants offer the perfect, wide-ranging concept to protect the health and general well-being of its customers.

Foam cleaning

Alkaline

Lerades® CSR 501*

Chlorine-alkaline foam cleaning agent and disinfectant for cleaning machines and work surfaces.

Contents: 11 kg + 22 kg canisters, 220 kg drum, 720 kg + 1100 kg containers

Assessed according to DIN EN 1276, 1650, and EN 13697

Lerapur® SR 115

Alkaline foam cleaning agent for day-to-day cleaning of machines, equipment, walls, and floors. This product has a distinctive foam action and is excellent for dissolving protein and grease.

Contents: 11 kg + 22 kg canisters, 240 kg drum, 720 kg + 1100 kg containers

Lerasept® DSR*

Alkaline, chlorine-free foam cleaning agent and disinfectant for cleaning machines and work surfaces.

Contents: 10 kg + 25 kg canisters, 200 kg drum, 1000 kg container

Assessed according to DIN EN 1276, 1650, and EN 13697

Lerapur® SRD

Alkaline special foam cleaning agent for day-to-day maintenance cleaning of machines, equipment, walls, and floors. Its special composition makes subsequent disinfection measures significantly easier.

Contents: 10 kg, 20 kg, 200 kg, 1,000 kg

Acidic

Leracid® AL 202

Highly acidic foam cleaning agent with strong solubility for limescale deposits, rust spots, pigments, grease, and protein. The special combination of acids works together with corrosion inhibitors to prevent any damage to the metals typically used in the food processing industry.

Contents: 12 kg + 24 kg canisters, 250 kg drum, 780 kg + 1200 kg containers

Leracid® RSC 215

Citric-acid-based foam cleaning agent for the removal of inorganic coatings on stainless-steel and plastic surfaces, walls, floors, and tiles.

Contents: 11 kg + 23 kg canisters, 240 kg drum

Smoke chamber cleaning

Lerapur® RHE 131 Premium

Strong, alkaline, foam cleaning agent. This product is particularly ideal for removing built-up carbon residue, grease, and other stubborn organic deposits – even at room temperature!

Contents: 25 kg canister, 270 kg drum, 800 kg + 1200 kg containers

Lerapur® RHE 132

Strong, alkaline, foam cleaning agent. This product is particularly ideal for removing built-up carbon residue, grease, and other stubborn organic deposits. Distinctive foam action.

Contents: 14 kg + 26 kg canisters, 280 kg drum, 870 kg + 1200 kg containers

Lerapur® RHE 133 Spezial

Strong, alkaline, foam cleaning agent. This product is particularly ideal for removing built-up carbon residue, grease, and other stubborn organic deposits. Lightly foaming.

Contents: 25 kg canister, 280 kg drum, 870 kg container

Lerapur® T 283

Strong, alkaline, CIP cleaning agent. This product is particularly ideal for removing built-up carbon residue, grease, and other stubborn organic deposits in program-controlled smoke-chamber cleaning.

Contents: 12kg + 25 kg canisters, 260 kg drum, 750 kg + 1200 kg containers

* Take care when using biocidal products. Always read the label and the product information before use.

Disinfectants

Lerasept® FP 408*

Ready-to-use, alcohol-based surface disinfectant for the quick and effective disinfection of surfaces and equipment. Lerasept® FP 408 offers a wide-ranging antimicrobial action and evaporates quickly without residue.

Contents: 750 ml spray bottle, 10 L canister

**Assessed according to
DIN EN 1276, 1650, and 13697**

Lerasept® FDH*

Ready-to-use, propanol-based surface disinfectant, halal-compliant. For the quick and effective disinfection of surfaces and equipment. Lerasept® FDH offers a wide-ranging antimicrobial action and evaporates quickly without residue.

Contents: 750 ml spray bottle, 10 L canister

**Assessed according to
DIN EN 1276, 1650, and 13697**

Lerasept® L 420*

Foaming, neutral surface disinfectant based on quaternary ammonium compounds for the quick and effective disinfection of surfaces and equipment.

Contents: 10 kg + 20 kg canisters, 200 kg drum, 650 kg + 1000 kg containers

**Assessed according to DIN EN
1276, 1650, and 13697**

Lerasept® AC*

Foaming, neutral, amine-based surface disinfectant for the quick and effective disinfection of surfaces and equipment.

Contents: 10 kg + 20 kg canisters, 200 kg drum, 640 kg + 1000 kg containers

**Assessed according to
DIN EN 1276, 1650, and 13697**

Lerasept® Spezial SR 415*

Stabilized, acidic, foaming disinfectant with a peracetic acid base. This product offers a remarkably wide-ranging bactericidal, fungicidal, sporicidal, and virucidal action.

Contents: 20 kg canister, 205 kg drum

**Assessed according to DIN EN 1276, 1650,
656, 1657, 13610, 13697, 13704, 14349 and 14675**

Lerades® CM 401*

Chlorine-based surface disinfectant for the quick and effective disinfection of surfaces and equipment in the spraying process. Non-foaming.

Contents: 12 kg + 24 kg canisters, 250 kg drum, 1200 kg container

**Assessed according to
DIN EN 1276, 1650, and 13697**

Lerades® CM 402*

Foaming, chlorine-based surface disinfectant for the quick and effective disinfection of surfaces and equipment.

Contents: 12 kg + 24 kg canisters, 250 kg drum

**Assessed according to
DIN EN 1276, 1650, and 13697**

Lerasept® T 430*

Surface disinfectant based on an aldehyde combination and quaternary ammonium compounds. For the effective disinfection of bacterial, fungicidal, and virucidal pathogens.

Contents: 10 kg + 30 kg canisters

Assessed according to DVG and DVV guidelines

Lerasept® Aktiv*

Highly effective, foaming surface disinfectant with a peracetic acid base. Lerasept® Aktiv offers an extremely wide-ranging bactericidal, fungicidal, sporicidal, and virucidal action – even in cold conditions.

This product is particularly ideal for disinfecting boots, vehicles, and cages, as well as for disinfecting general surfaces and stables in the field of intensive animal husbandry.

Contents: 10 kg + 30 kg canisters, 200 kg drum

**Assessed according to DIN EN
1276, 1650, 656, 1657, 13610, 13697,
13704, 14349 and 14675**

**FiBL-listed (list of resources for
organic farming in Germany)**

*** Take care when using biocidal products.
Always read the label and the product information before use.**

Crate washing

Acidic

Leracid® WMR 209

Highly acidic, ready-made cleaning agent for crate-washing plants. Dissolves, emulsifies, and disperses inorganic deposits as well as organic contaminants of all kinds.

Contents: 11 kg + 22 kg canisters, 230 kg drum, 720 kg + 1100 kg containers

Leracid® Klarspüler 308

Acidic rinsing agent for crate-washing plants. Improves drying results and keeps the rinsing zone limescale free.

Contents: 10 kg + 20 kg + 30 kg canisters, 220 kg drum, 1000 kg container

Leracid® KL 205

Descaling agent with exceptional dissolving and emulsifying properties. Also suitable for use during operation as an acidic cleaning agent.

Contents: 12 kg + 24 kg canisters, 250 kg drum

Leracid® AL ohne Schaum

Fast-acting descaling agent. For the removal of stubborn deposits (such as limescale and rust).

Contents: 12 kg + 35 kg canisters, 250 kg drum

Alkaline

Lerades® C-MA*

Alkaline, combined cleaning agent and disinfectant with an active chlorine base for the removal of organic residues in plants and containers.

CIP-compatible with controllable conductance.

Contents: 23 kg canister, 240 kg drum, 740 kg + 1100 kg containers

Lerapur® M-CIP

Highly alkaline, chlorine-free CIP cleaning agent for washing crates.

Complete with controllable conductance.

Contents: 12 kg + 25 kg canisters, 280 kg drum, 650 kg + 1200 kg containers

Anti-foaming agent

Wardolent

Silicone-oil-based anti-foaming agent. Fast acting even in minimal concentration levels.

Components are FDA listed.

Contents: 10 kg + 30 kg canisters, 200 kg drum

Leratens® ES 160

Surfactant-based anti-foaming agent suitable for hot and cold applications up to 80°C.

Contents: 10 kg canisters, 200 kg drum, 1000 kg

* Take care when using biocidal products.

Always read the label and the product information before use.

Maintenance cleaning

Lerapur® N 304

Neutral, fragrance-free cleaning agent. For manual cleaning in all areas of the food-processing industry and for washing dishes by hand.

Contents: 10 kg + 30 kg canisters, 200 kg drum

Lerapur® BR 301

Neutral, liquid/paste-like universal cleaner based on anionic and nonionic surfactants for the effective removal of protein, grease, and pigment contamination.

Contents: 10 kg bucket

Lerapur® Uni 310

All-purpose cleaning agent for the effective and gentle removal of protein, grease, and pigment contamination.

Contents: 10 kg + 30 kg canisters

Leraclen® HD 340

Universal power cleaner, highly alkaline. Organic dirt deposits are removed quickly and thoroughly. Particularly suitable for use in floor-scrubbing machines or HD equipment.

Contents: 10 kg + 22 kg canisters, 220 kg drum

Eurofour

Grill, oven, and convection-oven cleaner, highly alkaline.

The special combination of active agents dissolves and emulsifies burned-on or resinified deposits – even at room temperature.

Contents: 750 ml spray bottle, 11 kg + 30 kg canisters, 240 kg drum

Wardofix

Alcohol-based gloss cleaner with no traces of greasy or filmy residues. Particularly ideal for cleaning floors.

Contents: 10 kg canister

Lerapur® Glasreiniger 320

Ready-to-use cleaning agent for streak-free cleaning of window panes, mirrors, display cabinets, meat counters, and plastic surfaces.

Contents: 750 ml spray bottle, 10 kg canister

Leracid® SAN 210

Environmentally friendly sanitary cleaner with a quick and powerful action to remove limescale, rust, and urine deposits from tiles, flags, and floors.

Contents: 1000 ml round bottle, 10 kg canister

Special products

Lerades® SZ 120

Alkaline foam cleaning agent with bleaching and board-whitening action. Particularly ideal for cleaning cutting and carving boards.

Contents: 11 kg + 24 kg canisters, 250 kg drum, 720 kg + 1100 kg containers

Lerapur® AL 40

Skewer-brightening, alkaline cleaning agent granules for aluminum surfaces. Particularly ideal for cleaning smoke skewers and other aluminum objects. Removes smoke resin as well as grease and oil contamination. Clean surfaces are smoothed and brightened.

Contents: 10 kg bucket

Leracid® PMR 425

Acidic brine-machine cleaning agent. Particularly ideal for cleaning brine machines along with their injectors, as well as tumblers. Quickly and reliably dissolves pigment contamination, and emulsifies grease and protein.

Contents: 12 kg canister

Lerapur® Pflegeöl 390

Food-grade maintenance oil. Suitable for maintenance of machines and apparatus in all areas of the food industry. Offers an exceptional level of protection against moisture and corrosion. Occasional contact with food is permitted.

Contents: 1000 ml round bottle, 10 L canister

Lerapur® ESP

Cleaning care for stainless steel: Cleans and maintains in a single step. Protects against new fingerprints and leaves behind a pleasant orange fragrance.

Contents: 500 ml round bottle, 10 L canister

Lerapur® SBM 50

Powdered pig scalding agent for adding to the scalding water. Supports the loosening and loss of bristles as well as the cleaning of the carcass.

Contents: 10 kg bucket, 20 kg sack

Industrial dishwashers

Lerades® CM 160

Alkaline industrial dishwasher cleaning agent, suitable for all water hardnesses, compatible with aluminum.

Complete with controllable conductance and contains chlorine-based bleach.

Contents: 12 kg + 25 kg canisters, 250 kg drum, 1200 kg container

Lerapur® GSM 172

Mildly alkaline glass rinsing agent.

Contents: 12 kg + 25 kg canisters

Leracid® Klarspüler 308

Acidic rinsing agent for commercial dishwashers. Improves drying results and ensures dishware comes out shining without limescale deposits.

Contents: 10 kg + 20 kg canisters, 220 kg drum

Vehicle cleaning

Lerapur® TP 200 Universal Schmutzlöser

Alkaline concentrate with outstanding universal cleaning power. Oil, grease, road dirt, and other persistent dirt is removed quickly, thoroughly, and gently on materials. Surfaces have a visible sparkle after cleaning.

Contents: 10 L + 25 L canisters, 210 L drum, 1000 L container
ÖNORM B 5106 tested

Washing powder

Taid quality washing powder

Phosphate-free, heavy-duty detergent for all temperature ranges. Suitable for washing both whites and colorfast colors made of synthetic materials, cotton, or blended fabric. This product contains silicates to improve the washing performance and protect the washing machine.

Contents: 20 kg bag

Sanomat Hygiene* disinfectant washing powder

Hygienic general laundry detergent for chemo-thermal laundry disinfection from 60°C. Suitable for all washable textiles and laundry types.

Contents: 20 kg bag
VAH and RKI (A+B listing) certified

*** Take care when using biocidal products.
Always read the label and the product information before use.**

Personal hygiene

Septasan

Mild washing lotion for the food industry. Special skincare products and active detergents ensure gentle and hygienic hand cleansing. Dermatologically tested.

Contents: 1 L bottle (12 bottles/box), 10 kg canister

Lerasept® HD*

Alcohol-based hand disinfectant with skincare components and a replenishment system to protect the hands and keep them supple – even with frequent use. The alcohol-based components of Lerasept® HD offer a wide-ranging action complete with bactericidal, fungicidal, and fully virucidal properties. Lerasept® HD is dermatologically tested by an independent institute and has been rated as being exceptionally kind to skin.

½-minute application time according to VAH certificate.

Contents: 1 L bottle (12 bottles/box), 10 L canister

**Assessed according to
DIN EN 1500, 13727, and 14476**

Lerasept® HR*

Liquid, propanol-based hand disinfectant, halal-compliant, with excellent antibacterial properties.

Dermatologically tested for skin sensitivity.

Contents: 1 L bottle (12 bottles/box), 10 L canister

**Assessed according to
DIN EN 1500 and 14476**

SC 2-in-1 skin lotion

Combined, insoluble skin-protection and skincare cream. SC 2-in-1 skin lotion absorbs quickly into the skin and is free from both fragrances and silicones. SC 2-in-1 skin lotion contains vitamin E and aloe vera to protect and regenerate the skin. Dermatologically tested.

Contents: 1 L bottle (12 bottles/box), 100 ml tube

Foam and dosing technology

- 20 L pressurized-foam machine
- 90 L Dema foam machine with pressurized-air diaphragm pump
- Foam-injector vehicles
- Stationary foam systems
- Peristaltic pumps in various designs
- Admixture dispensers

Service

Our customers can take advantage of our personalized advisory service. What's more, STOCKMEIER also offers the following services:

- Installation and maintenance of foam and dosing technology
- Staff/product training courses
- Creation of hygiene plans
- Microbiological monitoring

This product overview has been put together specially to cover cleaning and disinfection in the general food industry.

If you would like additional information on our comprehensive product range then we will be happy to provide this on request.

In the event of any specific questions, please contact our specialist advisors.
